SUMMARY

Aspiring Full Stack Web Developer with hands-on experience in building responsive web applications using React.js, Next.js, Node.js, Express.js, JavaScript, MongoDB, and MySQL through academic and personal projects. Passionate about developing scalable, user-centric applications, integrating REST APIs, and leveraging AI to build modern web solutions. Strong problem-solving skills with a continuous learning mindset.

SKILLS

Programming Languages — JavaScript (ES6+), SQL, Python, C++

Frontend — HTML5, CSS3, Bootstrap 5, Tailwind CSS, React.js, Next.js, Responsive Web Design

Backend — Node.js, Express.js, REST APIs, JWT Authentication, CRUD Operations

Database — MySQL, PostgreSQL, MongoDB

Tools — Git, GitHub, VS Code, Postman, Vercel, npm

Core Concept — Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, Operating System, Computer Networks, API Integration, MVC Architecture

PROJECTS

AI Support Chat – SaaS Customer Support Platform

Tech Stack: Next.js, React.js, MongoDB, Scalekit, Gemini AI, Tailwind CSS, Vercel

- Developed a full-stack AI-powered customer support platform with a scalable multi-tenant architecture.
- Implemented secure authentication, organization management, and an embeddable AI chat widget.
- Designed REST APIs and integrated database operations for chatbot configuration and conversations.
- Deployed the application with a responsive dashboard and modern user interface.

MockMaster AI – AI Mock Interview Platform

Tech Stack: React.js, JavaScript, Tailwind CSS, Supabase, Gemini AI, Vercel

- Developed an AI-powered mock interview platform for technical and HR interview practice.
- Integrated AI-generated interview questions, voice interaction, and real-time feedback.
- Implemented interview history and performance tracking with a responsive user interface.
- Deployed the application on Vercel.

Expense Tracker Pro – Personal Finance Management System

Tech Stack: React.js, Node.js, Express.js, MySQL, Chart.js, Bootstrap

- Developed a full-stack expense management application with secure user authentication.
- Implemented REST APIs and CRUD operations for efficient expense tracking.
- Created interactive dashboards to analyze monthly and category-wise expenses.
- Designed a responsive interface and managed source code using Git & GitHub.

CERTIFICATIONS

JavaScript for Beginners – IBM SkillsBuild (Powered by freeCodeCamp) 

SQL BASIC  (HackerRank Certified)

Google Cloud Arcade – Full Profile (All Badges & Certificates) 

AI Tools & ChatGpt Workshop 

EDUCATION

B.Tech in Computer Science with Specilization IOT

KCC Institute of Technology and Management

Current CGPA: 7.89/10

2023 – Present
